

RoHS Compliance
(Directive 2011/65/EU)

Dear Madam, Dear Sir,

Please be informed that we are continuously evaluating the components that are supplied to manufacture our products and to our knowledge as of today and since January 1st 2006, all products manufactured by Microprecision Electronics SA comply with the RoHS directive 2011/65/EU.

Microprecision Electronics SA is neither a producer of raw material nor a Chemical supplier but we commit to ask our suppliers to be in compliance with the material we use to manufacture our products.

Microprecision Electronics SA has put in place a procedure towards its suppliers and we will be communicating further with our own suppliers and customers to gather the information that we will need to ensure compliance in a timely manner.

Microprecision Electronics SA
